

BLUETOOTH HEADPHONES

SAFETY WARNINGS

Hearing Safety

Headphones can deliver sounds at loud volumes and high-pitched tones. Exposure to such sounds can result in permanent hearing loss or damage. The volume level may vary based on conditions such as the phone you are using, its reception and volume settings and the environment. Please read the safety guidelines below prior to using these headphones.

1. Prior to using this product follow these steps:
 - a. Before putting on the headphones, turn the volume control to its lowest level
 - b. Put the headphones on
 - c. Slowly adjust the volume control to a comfortable level
2. During the use of this product:
 - a. Keep the volume at the lowest level possible and avoid using the headphones in noisy environments where you may be inclined to turn up the volume
 - b. If increased volume is necessary, adjust the volume control slowly
 - c. If you experience discomfort or ringing in your ears, immediately discontinue using the headphones and consult a physician

With continued use at high volume, your ears may become accustomed to the sound level, which may result in permanent damage to your hearing without any noticeable discomfort.

CAUTION

Using the headphones while operating a motor vehicle, motorcycle, watercraft or bicycle may be dangerous, and is illegal in some jurisdictions. Check your local laws. Use caution while using your headphones when you are engaging in any activity that requires your full attention. While engaging in any such activity, removing the headphones from your ear area or turning off your headphones will keep you from being distracted, to avoid accident or injury.

- If you have a pacemaker or other electrical medical devices, you should consult your physician before using the product
- This package contains small parts that may be hazardous to children. Always store the product out of reach of children. The bags themselves or the many small parts they contain may cause choking if ingested
- Never try to dismantle the product yourself, or push objects of any kind into the product, as this may cause short circuits which could result in a fire or electric shock
- None of the components can be replaced or repaired by users. Only authorized dealers or service centres may open the product. If any parts of your product require replacement for any reason, including normal wear and tear or breakage, contact your dealer
- Avoid exposing your product to rain, moisture, or other liquids
- If the product overheats, has been dropped or damaged or has been dropped in a liquid, discontinue use
- Dispose of the product according to local standards and regulations
- When you disconnect the power cord or any enhancement, grasp and pull the plug, not the cord. Never use a charger that is damaged
- Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type
- Battery shall not be exposed to excessive heat such as sunshine, fire or the like
- The use of apparatus in moderate climates

WARNING

- This product contains magnetic material. Contact your physician if you have questions on whether this might affect the operation of your implantable medical device

IN THE BOX

1. Bluetooth Headphones
2. Micro USB Charging Cable
3. 3.5mm AUX Cable
4. Instruction Manual*
5. Warranty Card*

*Not pictured

FUNCTIONS

CHARGING THE BATTERY

Before first use, it is recommended you charge your headphones for a minimum of 1 hour

1. Insert the small end of the included Micro USB cable into the Micro USB connector on the headphone's right ear pad
2. Connect the other end of the charging cable to a USB port on your PC, laptop or other charging device
3. The LED light will show a solid red colour to indicate charging is active
4. The light will turn green when fully charged

NOTE:

- Charge only with 5V DC 500mA input
- Use only the original Micro USB charging cable to avoid any damage
- When the LED flashes blue, the battery is low, charge the headphones

POWER ON/OFF

1. The power switch is located below the volume control, press the power switch upwards
2. The headphones will state "power on" when the headphones are turned on
3. Press the power switch downwards to turn off

PAIRING

- 1. While the Headphones are on, press and hold the button for 5 seconds until the LEDs on the bottom flash red and blue and you hear an audio cue of “pairing”
- 2. Enable Bluetooth on your device, search for and select HE180096 from the list to connect
- 3. When the headphones are successfully paired with your device, you will hear a prompt “connected” and the LED indicator will flash blue every 12 seconds (approximately)

NOTE: On first use the headphones should automatically enter pairing mode

LISTENING TO YOUR DEVICE

Once you have successfully paired to a device, you can play, pause, track forward, track backward and change the volume using the headphone controls/device controls

CONTROLS

Play/Pause Music	Press the play button once
Volume Up	Press the volume up button
Volume Down	Press the volume down button
Next Track	Hold the volume up button
Previous Track	Hold the volume down button
Answer/End Call	Press the play button once
Reject Incoming Call	Hold down the play button

This product complies with EU WEEE Directive (2012/19/EU). This product bears a classification symbol for waste electrical and electronic equipment (WEEE). This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling.

USING THE AUDIO CABLE

The included audio cable can be used to connect to a non-wireless device or for listening to music when the headphone batteries have been drained

- 1. Connect the included 3.5mm audio cable to the aux-in jack located on the right earcup
- 2. Connect the other end of the audio cable to the audio jack

NOTE: When connected via audio cable, the Bluetooth function and controls are disabled. You cannot control playback using the headphone controls when connected via aux-in. The headphones will not be discoverable on Bluetooth

BATTERY CARE

- Make sure that your headphones are switched OFF after use
- Do not leave a fully charged battery connected to a charger, since overcharging may shorten its lifetime
- Before storing the headphones for long periods of time, be sure to fully charge the battery
- When the battery is low and flashing red you must charge the headphones
- If the battery is completely discharged, the headphones cannot be turned on immediately when the charger is connected. Allow a depleted battery to charge for a few minutes before turning on the headphones
- Always try to keep the battery between 15°C and 30°C. A product with a hot or cold battery may not work temporarily, even when the battery is fully charged

Packaging materials of the product are manufactured from recyclable materials in accordance with our National Environment Regulations. Do not dispose of the packaging materials together with the domestic or other wastes. Take them to the packaging material collection points designated by the local authorities.

TECH SPECS

Driver Unit:	40mm
Impedance:	32Ω
Frequency Range:	20Hz-20KHz
Bluetooth Version:	5.0
Transmission Range:	Up to 10 metres
Playback time:	Up to 15 hours
Battery:	550mAh Lithium Battery
Power Input:	DC 5V, 500mA
Maximum Radio-Frequency Power:	Less than 20mW
Frequency Band:	2402-2480 MHz
