1. Mounting your phone holder with selfie light

Using the clip at the end of the product, carefully clip the phone holder with selfie light to the edge of a table, desk or anywhere that the clip will grip securely

NOTE: You will need to check that you have access to either a computer or USB power adaptor and power supply for the selfie light

2. Mount your smartphone by securing it in the phone holder

Pull the top section of the phone holder to extend. Carefully place your phone between the top and bottom sections of the holder. Your phone should be firmly secured

NOTE: You won't need to remove your phone case

3. Lighting mode

Plug the USB into either a power adaptor (not supplied) or a computer/laptop (not supplied). Then press the power button on the control panel. On the control panel you can adjust the brightness of the LED selfie light by pressing the + to increase the brightness or the - to decrease the brightness. There are 10 levels for you to choose from. You can also change the colour of the white by pressing the ↻ button. There are three whites to choose from (these range from cold to warm white)

4. Position the phone holder with selfie light at your desired position and angle

Move the light and the phone holder around until you are happy with the position of both of these. You can also adjust the angle of the phone holder

5. Once you are happy with the look, simply smile and start

Aim the mobile and press either the camera image to take a photo or start recording

1.

2.

*Smartphone not included
